Dear Kindergarten Children and Parents,

Mrs. Keresoma found me at a little store in Yosemite during her vacation one summer, when she was spending a week at camp with her husband and two children.

Now that school has begun, she has suggested that I spend a weekend with the children in her kindergarten class. I have come with a toothbrush so I can brush my teeth, and a journal so you can write about that we did together at your home.

Since a different child will be expecting to take me home each weekend, please be sure that I come to school on Monday. Also, I don't want to miss what is going on in school.

Your friend,

Butterscotch the bear
